2011 Annual Report

Letter from the IMDSA Board of Directors

The IMDSA mission statement: “IMDSA is designed to support any family or individual whose life has been affected by Mosaic Down syndrome by continuously pursuing research opportunities and increasing awareness in the medical, educational and public communities throughout the world”. The board of directors worked in 2011 to making this statement a reality. Here are some of the efforts the board has made to raise the awareness of Mosaic Down syndrome.

- Increased visibility and awareness of IMDSA and Mosaic Down syndrome by attending the Down Syndrome Affiliates In Action (DSAIA) Leadership Conference and National Down Syndrome Congress Conference. The DSAIA Conference allowed board members to network with leading Down syndrome researchers and other Down syndrome Association leaders.
- Maximized the organization’s effectiveness and network by working with a conglomerate of other national Down syndrome organizations to combine efforts on Down syndrome awareness, policy and advocacy.
- Held the 5th Biennial Research and Awareness Conference in Orlando, FL where families were able to connect and participate in research and educational workshops.

In 2012, we will continue our efforts to spread awareness about Mosaic Down syndrome and pursue research opportunities. We will also explore ways to have families connect at the local level.

We thank you for your continued support of the International Mosaic Down Syndrome Association. With everyone’s efforts we can raise awareness of Mosaic Down syndrome!

Sincerely,

IMDSA Board of Directors

Brandy Hellard — President

Kristina Welch — National Vice President/Interim Treasurer

Brian Chun — International Vice President

Shayna Soniat-Hansel — Secretary
